

The image features a red, rounded rectangular background with a slight 3D effect. On this background, the company name 'ALABAMA' is written in large, bold, black capital letters. Below it, 'BUILDING MATERIALS TRADING L.L.C.' is written in smaller, black capital letters. Further down, the tagline 'A LEGACY BUILT ON TRUST' is written in white, bold, capital letters. Below the tagline, the phrase 'UAE leaders in supply of Building Materials' is written in a smaller, white, italicized font. The entire composition is set against a white background with several vertical red lines of varying heights and a series of concentric red curved lines on the right side.

ALABAMA

BUILDING MATERIALS TRADING L.L.C

**A LEGACY
BUILT ON TRUST**

*UAE leaders in supply of
Building Materials*

*We've grown by keeping things simple: be honest,
be ethical, and stay transparent.
Our customers aren't just part of the journey—they
are the journey.
Everything we build today is possible only because
of the faith they show in us.*

Team Alabama

Your Partners In Progress

A trusted supplier of high-quality plumbing and building materials, delivering reliable solutions for residential, commercial, and industrial projects across the UAE. Our portfolio includes water heaters, pipes and fittings, valves, pumps, and sanitary solutions - carefully selected to meet performance, durability, and efficiency standards.

·PLUMBING, SANITARY WARE AND

WRAS AND ESMA
CERTIFIED PRODUCTS

- Strong focus on quality-led sourcing from globally trusted manufacturers
- Efficient warehouse & logistics network ensuring timely availability across the UAE
- Solutions designed to meet the needs of developers, contractors & builders
- Commitment to water efficiency, durability & long-term performance
- Committed deliveries
- Streamlined procurement for projects of all scales — residential, commercial & hospitality

Alabama is led by seasoned professionals with 30+ years of hands-on industry experience. Supported by a strong logistics and facility network, we ensure faster dispatches and efficient deliveries—so your projects stay on schedule and your commitments remain intact.

A PROMISE TO MAINTAIN SUPREMACY

VISION

To be a trusted partner of choice in the building solutions industry, recognized for reliability, quality, and long-term value creation. We aspire to support the growth of the construction ecosystem by delivering products and services that consistently meet the highest standards of performance, safety, and excellence.

MISSION

Our mission is to deliver dependable sanitary ware, plumbing, and water heating solutions that add measurable value to every project we serve. Through strong partnerships, operational excellence, and continuous improvement, we aim to support developers, contractors, and consultants with products, expertise, and service they can rely on—today and in the future.

CORE VALUES

- **Customer First:** We place customer needs at the center of our decisions, delivering solutions that ensure satisfaction, reliability, and trust.
- **Integrity & Transparency:** We conduct business with honesty, accountability, and ethical practices at every level.
- **Quality & Reliability:** We are committed to offering products and services that meet global standards and deliver long-term performance.
- **Collaboration & Teamwork:** We work closely with partners and stakeholders to achieve shared success across projects and markets.
- **Continuous Improvement:** We embrace innovation, learning, and process enhancement to stay ahead in a dynamic industry.
- **Sustainable Growth:** We focus on responsible growth that benefits our customers, partners, people, and the wider ecosystem.

FACILITIES DESIGNED TO SUPPORT GROWTH

Warehouse Locations

- Ras Al Khor & Dubai Investments Park 2

Both facilities are strategically positioned with direct access to major highways, industrial zones, and key project corridors, enabling faster dispatch and smooth inbound and outbound logistics.

Storage & Inventory Management

- Well-organized warehousing layout for sanitaryware, plumbing materials, water heaters, valve fittings, and accessories
- Segregated storage zones to ensure product safety, easy identification & damage prevention
- Optimized inventory planning to support bulk orders, phased project deliveries and retail distribution

Logistics & Movement Efficiency

- Smooth loading and unloading zones designed for high-volume material movement
- Efficient internal handling systems to minimize turnaround time
- Fleet-ready dispatch areas enabling timely deliveries across the UAE

Dedicated Operations Team

- Trained and experienced warehouse staff managing inbound, outbound, and stock control operations
- Strict handling protocols to ensure product integrity and accuracy
- Coordinated teams supporting urgent requirements and project-driven timelines

Process & Quality Control

- Systematic material tracking and documentation
- Regular stock audits to ensure availability and consistency
- Clean, organized, and safety-compliant warehouse environment

Safety & Workplace Standards

- Safety-first operational practices across all facilities
- Clear movement pathways and ergonomically planned layouts
- Focus on workforce well-being, operational discipline and compliance
- Designed to Support Growth

WATER HEATERS

MADE IN ITALY

Engineered with Italian precision for everyday comfort - Lamborghini water heaters deliver reliable hot water, energy efficiency, and long-lasting performance.

- Lamborghini Caloreclima (Brand of Ferrolì)

Proudly distributed in the UAE by Alabama, Lamborghini Water Heaters combine luxury Italian engineering with everyday durability - ensuring efficient, dependable hot water you can trust.

- ALABAMA

7+5 Years Warranty

7 years on Electrical components 5 years on Tank

Italian Design

Iconic Italian aesthetics & advanced water-heating technology

Blue Forever

Patented Blue-Silicon Enameled Heating Element

WRAS Certified

Tested and approved under WRAS standards

WATER HEATERS

MADE IN EGYPT

Designed for consistent comfort, Fresh water heaters pair advanced insulation and corrosion protection with precise temperature monitoring and built-in safety shutoffs - giving you reliable hot water and worry-free operation for your home.

- Fresh

Chosen and supplied by Alabama, Fresh water heaters offer dependable performance, robust build quality, and energy-efficient comfort

- ALABAMA

High Energy Efficiency

Advanced insulation technology helps retain heat longer.

Enhanced Safety Systems

Equipped with thermostats, pressure relief valves, and thermal cut-off.

Corrosion-Resistant

High-quality enameled steel tanks designed to resist rust

WRAS Certified

Tested and approved under WRAS standards

WATER HEATERS

MADE IN GREECE

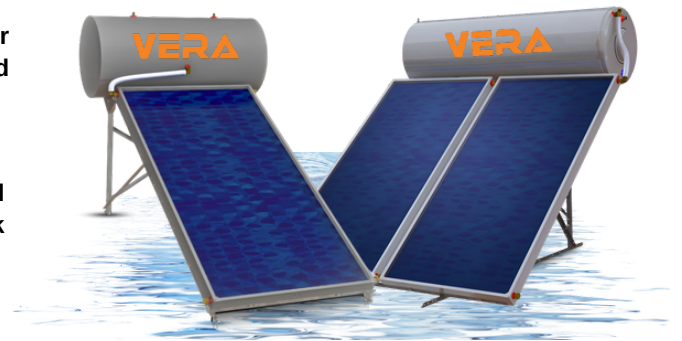

VERA

VERA delivers high-efficiency, DCL-certified solar water heating solutions, engineered for sustainability and backed by Junaid Group's legacy.

- Vera

Alabama connects you directly to VERA's certified solutions, ensuring competitive pricing, stock availability, and complete project support.

- ALABAMA

Versatile Application

Diverse capacities suitable for residential and commercial applications.

Superior Tank Protection

Heavy-duty enameled tanks resist against corrosion and hard water.

High-Efficiency Collectors

Premium collectors ensure maximum heat absorption and efficiency.

Certified Excellence

DCL and Solar Keymark certified for guaranteed performance.

VALVES & PLUMBING ACCESSORIES

MADE IN CHINA

HOME CREATOR

Home Creator specializes in high-performance valves meeting the strictest global standards (WRAS, UL, FM, CE). Our automated manufacturing ensures precision and reliability for plumbing, HVAC, and gas systems.

- Home Creator

"Alabama partners with Home Creator to bring certified safety to UAE infrastructure. We supply these internationally approved valves to ensure your projects meet critical MEP standards without compromise."

- ALABAMA

Globally Certified Quality

WRAS, UL, FM, and CE approved for international compliance.

Vertical Production Precision

80% automated manufacturing ensures consistent, defect-free valve performance.

Rigorous CNAS Testing

Tested in accredited labs for durability, pressure, and leakage.

Diverse MEP Solutions

Complete range of valves for plumbing, HVAC, and gas.

VALVES & PLUMBING ACCESSORIES

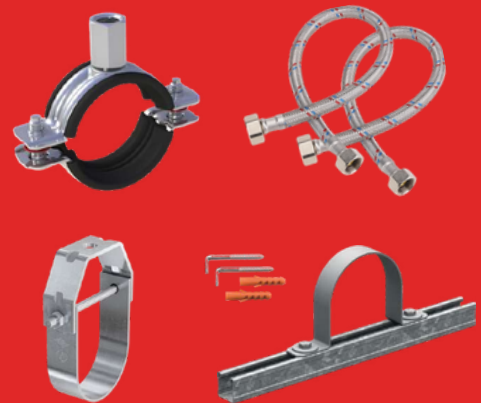

Unified plumbing solutions engineered for safety and efficiency, delivering reliable connections, sturdy support, and advanced water management

- JOFLEX (By Junaid Group)

Alabama is your one-stop partner for the complete joflex ecosystem, guaranteeing stock availability and seamless project integration.

- ALABAMA

Heavy-Duty Materials

Premium stainless steel and reinforced metals ensure longevity.

Easy Installation

Smart designs allow for quick, labor-saving site assembly.

Leak-Free Performance

Precision engineering guarantees secure connections and water tightness

Universal Compatibility

Versatile sizes and specifications suit every project need.

SANITARYWARE & ACCESSORIES

MADE IN CHINA

Setting the standard for modern drainage and water hygiene, Aquavera combines high-grade stainless steel manufacturing with intelligent design. From ISO-certified floor drains to advanced 17-stage shower filters, we provide solutions that ensure efficient water discharge, odor prevention, and a healthier bathing experience.

- AQUAVERA (By Junaid Group)

Alabama partners with Aquavera to deliver essential drainage and filtration solutions that guarantee hygiene, prevent blockages, and ensure long-term durability for residential and commercial projects.

- ALABAMA

Hygiene-First Design

Stainless steel construction prevents bacteria buildup and simplifies cleaning.

Advanced Shower Filtration

17-stage filters remove chlorine and heavy metals for health.

Odour & Pest Control

Integrated traps block bad smells and insects effectively.

Marine & Commercial Grade

Heavy-duty SS316 options suit demanding industrial environments.

KITCHEN & ACCESSORIES

MADE IN CHINA

Redefining the kitchen experience since 1980 with handcrafted precision, using premium AISI 304 stainless steel to deliver sinks that blend minimalist elegance with a lifetime of durability.

- Nuova

Alabama supplies Nuova to offer our clients kitchen solutions that are not only aesthetically stunning but built to withstand the toughest daily demands with a 50-year warranty.

- ALABAMA

50-Year Warranty

Guaranteed longevity backed by decades of manufacturing expertise.

Premium AISI 304 Steel

Extra-thick 14-gauge stainless steel resists corrosion and dents.

Nano-Tech Surface

Innovative finish creates a 'Lotus Effect' for easy cleaning and hygiene.

Handcrafted Precision

Seamless welding and polishing ensure a sleek, modern aesthetic.

SANITARYWARE & ACCESSORIES

MADE IN CHINA

Where Italian-inspired design meets daily functionality, delivering elegant, durable, and water-efficient sanitaryware for modern living spaces

- Jomix (By Junaid Group)

Alabama brings you Jomix to offer the perfect balance of style, durability, and affordability for residential and commercial projects.

- ALABAMA

Premium Cartridge Technology

Smooth ceramic cartridges ensure precise control and drip-free operation.

Durable Surface Finish

High-quality plating resists corrosion, scratches, and tarnishing over time.

Water-Saving Aerators

Integrated aerators reduce water consumption without compromising flow pressure.

Modern Aesthetic Design

Sleek, contemporary styles available in Chrome, Black, and Gold finishes.

PIPE & PLUMBING MATERIAL

COES is a system of pipes and fittings in random polypropylene with diameters from 20 to 160mm, for hot water supply, for heating and for cooling, which meets the most demanding requirements in terms of strength and durability.

PP-R is a plastic material that is resistant to cracking even under stress, corrosion and chemical agents. Its molecular composition also ensures soundproofing and protection from stray currents.

Non- Toxic Materials

The Random Polypropylene, used to produce them, strictly follows international sanitary regulations.

Safety Against Corrosion.

COES pipes and fittings resist acids, alkalis, and many chemicals across a wide pH range of 1–14.

Noises and Vibrations.

PPR's flexibility and high sound insulation reduce water-flow noise, vibrations, and water hammering.

Safety Against Condensation and Heat Loss.

PPR pipes reduce condensation and minimize heat loss due to their low thermal conductivity.

SANITARY WARE

MADE IN UAE

Where UAE manufacturing excellence meets German engineering, delivering durable ceramics, refined fittings, and water-efficient innovation -

Kludi RAK offers reliable performance and elegant design for residential, hospitality, and commercial projects.

Precision Cartridge Technology

Smooth, responsive handling for precise control and long-lasting reliability.

Eco Water-Saving Solutions

Sensible sustainability without sacrificing performance.

Durable Surface & Glaze Finishes

High-quality ceramic glazes and plated fittings designed to resist wear.

Contemporary, Project-Friendly Design

Clean, modern aesthetics that suit diverse interiors.

FAUCETS, MIXERS SANITARY WARE

MADE IN GERMANY

Pure Freude

WORD OF CONFIDENCE

“Alabama Group has consistently demonstrated exceptional reliability and professionalism in every engagement. Their product knowledge, technical understanding, and ability to deliver on time make them a dependable partner for any MEP requirement. What truly sets them apart is their responsiveness and commitment to quality — qualities that are rare in today’s fast-paced market.”

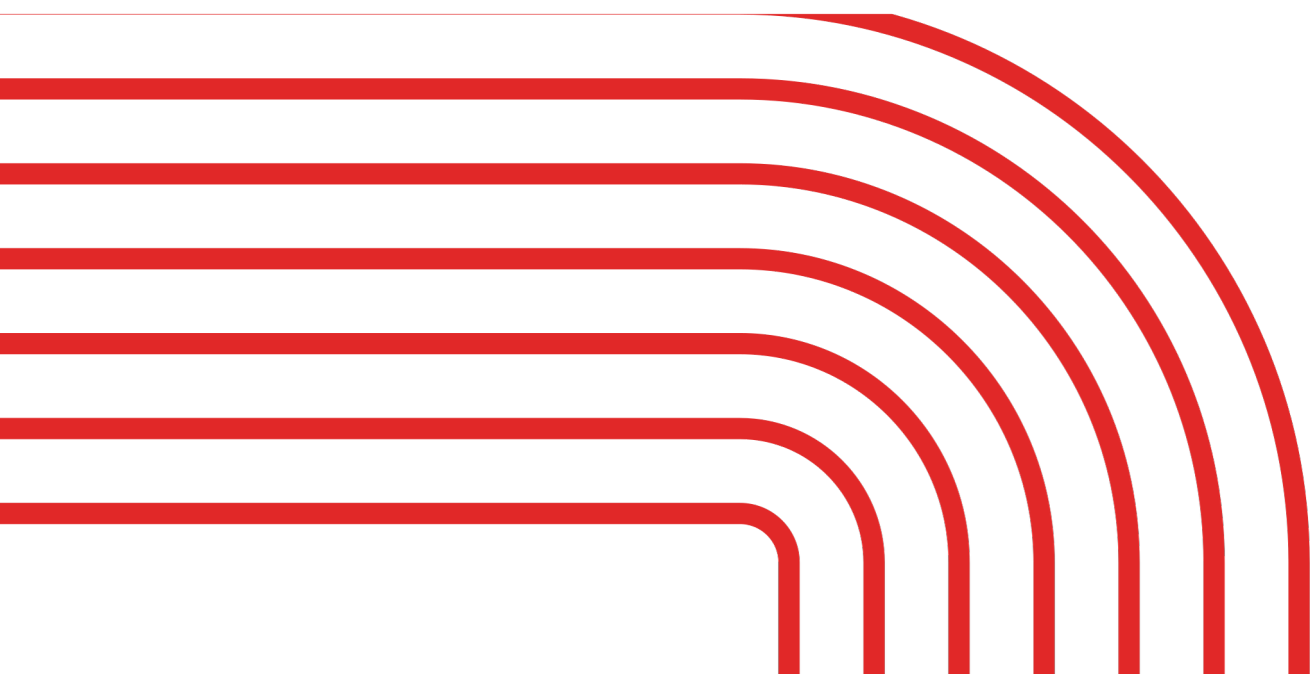

— Senior MEP Consultant, Dubai

“Working with Alabama Group has been a seamless experience. From quotations to deliveries and after-sales support, their processes are structured, transparent, and highly reliable. Their team understands project urgency and always goes the extra mile to ensure timelines are met. A truly professional organization with strong service values.”

— Procurement Head, Leading Real Estate Developer, UAE

“Alabama Group has been one of our most dependable supply partners. Their stock availability, technical coordination, and after-sales support significantly reduce our site challenges. They don’t just supply products they provide solutions, which makes a big difference during execution.”

— Project Manager, MEP Contracting Company
